SKILLS

-
- **Languages:** Java, JavaScript, C, C++, Python
 - **Technologies:** HTML, CSS, Bootstrap, Node.js, React, Tailwind CSS, Express.js
 - **Databases/Tools:** MySQL, MongoDB, Git, GitHub, Figma
 - **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

AGRISENS WEBSITE | [GITHUB](#)

NOV 2026

- Developed an AI-powered smart-farming platform designed to assist farmers with **crop selection and agricultural decision-making**.
- Implemented features for **crop recommendation, crop disease detection, and weather analysis** to provide data-driven farming insights.
- Built an interactive dashboard to centralize agricultural recommendations and important farming information in one platform.
- Structured the application with separate **frontend and backend logic**, creating a scalable foundation for integrating real-world agricultural data and AI models.
-

Rescue — Emergency Assistance App | [GITHUB](#)

JAN 2026

- Developed an Android-based emergency assistance application designed to provide faster support during critical situations.
- Implemented **SOS alerts, real-time location sharing, emergency contacts, and medical information access** for rapid emergency response.
- Integrated **Firebase** for backend services and real-time data communication across the application.
- Designed the system to improve accessibility and reliability of emergency information and communication during critical situations.
- **Tech Stack:** Android Development, Firebase, Real-Time Communication

Smart Canteen Management System | [GITHUB](#)

JAN 2026

- Developed a full-stack smart canteen management platform during the **BuilderFest 2026 overnight hackathon**, enabling students to order food and manage pickups digitally.
- Implemented **online food ordering, live order tracking, token-based pickup updates, and real-time preparation status**.
- Built a dedicated staff dashboard for managing live orders and updating the order workflow in real time.
- Integrated frontend and backend services with **MongoDB**, resolving deployment, database, and real-time synchronization challenges during development.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Real-Time Communication

CERTIFICATES

- **Bharatiya Antariksh Hackathon 2026 — ISRO** [linkedin](#) JUN 2026
- **Winner — BuilderFest 2026 --- AWS LPU** [linkedin](#) JAN 2026

ACHIEVEMENTS

- **Winner — BuilderFest 2026:** Secured **1st Position** as a member of Team DUNCAN in the overnight hackathon organized by the AWS Student Builder Group, Lovely Professional University.
- **Winner — Best Portfolio Challenge:** Won the Best Portfolio Challenge organized by the AWS Cloud Club, Lovely Professional University, recognized for creativity, technical proficiency, and effective use of cloud technologies.
- **Bharatiya Antariksh Hackathon 2026 — ISRO:** Successfully participated and submitted an idea in the national-level hackathon presented by the Indian Space Research Organisation (ISRO) and powered by Hack2Skill.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.77**

Phagwara, Punjab
Aug 2026 - Present
